

Yundi is Hurt

Overview: Yundi fell off his bike and hurt his knee. He doesn't want to go to the hospital. These activities explore a child's fears of riding in an ambulance, going to a hospital and receiving medical care. Activities introduces the roles of an Emergency Medical Technician , a nurse and a doctor as well as stressing the need for getting medical help when injured.

Activity 1: The ambulance ride activity explores a child's fears of riding to the hospital in an ambulance. It is a good time to get fears out in the open and talk about what to expect if every riding in an ambulance becomes necessary.

Activity 2: EMT Frances rode to the hospital in the ambulance with Yundi. This activity raises questions about what is the role of an Emergency Medical Technician and what they do to help when you are hurt and have to ride in an ambulance. Coloring EMT Frances and drawing are a part of this activity which adds an element of fun.

Activity 3: A child is introduced to some of the people he or she may meet in the hospital. The activity asks what about things a nurse might be expected to do. The child can then draw and color the character of Nurse Diane.
